CHAPTER 1
OVERVIEW

1-1. References

   c. Title 5, Code of Federal Regulation 610, Hours of Duty.

   d. AR 600-9 and FM 21-20

1-2. Introduction

   a. The Voluntary Health and Physical Fitness Program promotes health, enhances performance and prolongs life. It has been demonstrated that active participants are content and more productive employees. Participants embarking on a physical fitness program are personally responsible for educating themselves concerning health and fitness issues. It is recommended that you consult with your personal physician prior to starting the program.

   b. This is a voluntary program and participation is with your supervisor’s consent. Employees are not required to participate in the program, nor will reprisals be taken for non-participation.

1-3. Applicability

   All Colorado National Guard (Title 32) Excepted/Competitive Technicians and AGR Employees are eligible. This includes all permanent, indefinite and temporary civil service employees. Proponent for this regulation is the Human Resources Office-Employee Relations Specialist (HRO/ERS), at (303) 677-8839 or DSN 877-8839.

1-4. Purpose

   This Pamphlet defines guidelines for employee participation in a Health and Physical Fitness Program which includes official time for physical fitness or physical training (PT) activities and agency sponsored wellness and disease prevention activities.

1-5. Bottom Line Rules

   a. It is the supervisor’s decision to allow, suspend or cancel PT privileges due to mission requirements.

   b. Wear of the uniform is not required at the beginning or end of the day if PT is taken at that time. For example, an employee may report to work in PT clothes if performing PT first thing in the morning, then change into military uniform after PT session.

   c. Physical fitness activities are limited to calisthenics (exercises such as stretching, sit-ups and other strength building exercises) and aerobic exercise (i.e., running, biking, brisk walking and swimming).

   d. Team sports/games (such as basketball, volleyball, etc.) are not authorized.

   e. Time allowed for PT will not exceed 3 hours per week.

CHAPTER 2
VOLUNTARY PHYSICAL FITNESS POLICY

2-1. Authority

   The use of official time for voluntary physical fitness is a privilege. Supervisors are expected to handle abusers of the program with the same procedures that would be used to address any other disciplinary problems. Authority for individual revocation is delegated to the Air
Commander (ANG) or Command Administrative Officer (ARNG). Supervisors and program participants alike are expected to maintain both a continuity of work and control of the program. Employees are reminded that their participation will be managed relative to mission requirements. All work sections are to remain operational, although exceptions are understood for one-person sections.

2-2. Suspension / Cancellation of the Program

Supervisors are authorized to temporarily suspend the program if mission or workloads require. When a temporary suspension is necessary, consideration should be given to the length of the suspension. Objective criteria should be used in determining when the program will resume. Supervisors will coordinate all temporary program suspensions with their Commander/Directorate. The appropriate Labor Union Chapter of ACT will be notified when the suspension will exceed one (1) week for Title 32 excepted/competitive technicians. Changes to the Physical Fitness Policy are subject to I & I Bargaining.

CHAPTER 3
GUIDELINES FOR A PHYSICAL FITNESS PROGRAM

3-1. Official Time Authorized

a. No more than 3 hours of official time per week (not to exceed 1½ hours per day) will be used for this program. Supervisors need not record any leave status (i.e., excused absence) on the Time and Attendance record. A supervisor’s “PT Sign In/Sign Out Log” is provided for documenting an employee’s departure and return to the work area during each exercise period (see Appendix C). The exercise period must originate and terminate at the work-site within the hours of the duty day unless exception is granted by the HRO/ERS (see Appendix B). This requirement, in conjunction with the “PT Sign In/Sign Out Log” is necessary since technicians may not be covered under the Federal Employees Compensation Act (FECA) for any injury that occurs while participating in the Physical Fitness Program. Conversely, employees who fail to follow this procedure will lack proof that they were injured while participating in an agency sponsored Physical Fitness Program and therefore may not be covered under Worker’s Compensation.

b. Organizational supervisors may request an exception to policy if employees wish to utilize an established fitness facility (See Appendix B for Sample Letter). Include in the request what management controls are in place to document legitimate physical fitness activity. Send request to HRO/ERS, 6848 So Revere Parkway, Englewood, CO 80112-6709. This documentation is used in the event that an injury occurs which could result in an Office of Workers Compensation (OWCP) claim.

c. The time authorized for physical fitness begins with any absence from official duties for physical training, which includes preparation and travel time (i.e., to change clothes, shower or travel to/from the fitness location).

d. Official time may be used in one-half (½) hour to one and a half (1 ½) hour increments, but not to exceed 3 hours total per week, and not to exceed 1 ½ hours per day. The lunch period may be incorporated for the purpose of extending an exercise period. If work requirements or weather preclude physical fitness activity on a given day of the week, time may be rescheduled for a different day of the week, but the maximum of 1 ½ hours per day and 3 hours per week rule still applies.

3-2. Authorized Activities

The objective of this program is to encourage continuing physical activity with
a goal of total fitness. It is not intended to replace on-going individual programs conducted away from the work-site. Activities allowed under this policy are limited to calisthenics such as stretching, sit-ups and other strength building exercises, or aerobic exercise such as running, biking, brisk walking and swimming. Team games/sports are not allowed. As an exception, work units involved in family days, holiday celebrations, etc., may request special authorization from The Adjutant General to conduct team sports such as volleyball, basketball, and softball. Request shall detail type of activity and be forwarded to the Adjutant General through the HRO well in advance.

3-3. Monitoring of the Program

All employees that participate in the Colorado National Guard Physical Fitness Program must complete the “Statement of Understanding and Liability” which outlines the risks that each individual assumes by participating in this program prior to starting (see Appendix A). The original must be forwarded to HRO/ERS, Stop REV, to be filed in the Official Personnel Folder (OPF), or HRO/AGR to be filed in the AGR record. A copy must be kept in the Employee’s Work Folder (supervisory record) that is maintained by the supervisor.

CHAPTER 4
AGENCY SPONSORED ACTIVITIES

4-1. General

Agency sponsored wellness and disease prevention activities, such as health fairs, smoking cessation information programs or disease awareness programs can be attended in an “excused absence” status. The amount of excused absence in each instance should be a specific and fixed duration. An excused absence should not be granted for participating in an activity over an extended or indefinite period of time. The supervisor approving the absence should insure that the employee’s absence will not interfere with the timely and effective performance of agency work and service to our customers. All employees are encouraged to maintain a healthy and physically fit lifestyle.
